### **Gains of the Great Depression**

During the Great Depression, millions of people lost jobs, and families struggled to find financial footholds. It lasted for ten years, leaving very strong memories of dramatically dark times. Throughout those years, people found new ways to cope with the struggles, and interestingly enough, new emotions and belief in the ideals of America. Everybody learned the importance of being resourceful, while also keeping hope for the future and growing more unified and patriotic as a country.

One important effect of the Great Depression was how it made people and families resourceful. That quality is largely a part of the memoir *Digging In*, where a man who lived during the Depression talked about his family's frugality, and how they had to "cut back on everything possible" in order to save money. Some of the things they had to cut back on included city water, selling their car, and discontinuing purchases of toothpaste, toilet paper, and snacks, just to name a few. They also "took care of what [they] had", and listed all the ways they used a cotton cloth, which included using it as a dish cloth, bandage, quilt piece

and more. These qualities of being frugal and resourceful weren't bad; they taught people to not be wasteful and to not spend money on things that aren't necessary. Being resourceful became a part of life during the Depression as a way to help families stay financially afloat.

More significantly the Great Depression, in a broad sense, brought a sense of patriotism and more unity as a country. Former President Franklin D. Roosevelt enriched his second inaugural address with these ideals. He said that the greatest change he had witnessed was the "change in the moral climate of America" and that they were on the road of progress. Another quote of his was "in seeking for economic and political progress as a nation, we all go up, or else we all go down, as one people." What Roosevelt was implying was if the people wanted their country to go in the right direction, they all had to work together. Working together wouldn't be hard, due to the entire country's new sense of belief in their country, also known as patriotism. The United States' stronger sense of unity that came about during the depression helped citizens work through the hard times.

Most importantly, the Depression oddly enough brought a sense of hope. In some cases, farmers had to keep hope for the future and that it would bring rain for their crops so they could get money, as a farmer had in a poem called "Debts". In an article about "The New Deal", an explanation was given about how Roosevelt gave the country hope by creating many reforms that were aimed to "relieve poverty, reduce unemployment, and

speed economic recovery". This hope for the future gave people something worth living for during times when suicide didn't seem like a bad idea. Indeed, this sense of hope was a very important effect that the Great Depression had on the people who lived through it.

Reminds audience of the focus / topic / main point of the essay.

Even though the Depression devastatingly affected tens of millions of people, the way it changed people's outlooks was inspiring. Instead of tossing a cotton bag in the garbage, people learned to be resourceful and used them as towels and dish cloths. A stronger sense of pride in their country helped them work through the hardships together, with patriotism and unity. Above all else, without hope for the future, people would've given up on trying to fix their severely wounded economy. These enhanced senses of resourcefulness, unity, along with patriotism and hope were all ways that the Great Depression affected Americans.

**Makes an important distinction, demonstrating understanding of the complexity of the topic**

**Provides a conclusion that follows from and supports the information presented by articulating implications and the significance of the topic**

In this on-demand assignment, students were asked to explain the effects of the Great Depression on people who lived through it. This writer provides some context about the severity of the Great Depression in the introduction and then states his main points (the Great Depression taught people to be resourceful as well as inspired unity), which serves to preview what follows.

The writer organizes ideas, concepts, and information clearly by concept, using textual evidence to support the main points. While he uses the texts extensively, they are not the organizing principle; rather, the concepts of resourcefulness and unity are. The writer uses appropriate, varied, and strong transitions to clarify relationships and create cohesion (for example, "*Indeed, this sense of hope...*"). Within each chunk of the essay, the writer uses precise language and domain-specific vocabulary to name and explain the effects, which he has identified from the texts he has read. The writer analyzes evidence thoughtfully throughout so that the reader grasps the complexity of the topic.

While the essay is compelling and even dramatic, it has an appropriately formal style. The conclusion follows from and supports the information presented, and in it the writer analyzes the implications and significance of the topic.
